22 April 1969

25X1A MEMORANDUM FOR : [REDACTED]  
SUBJECT : The CS Senior Seminar

1. Attached for your information and review are the following materials:

- 25X1A a. Commentary by [REDACTED]  
on the topics to be considered by the Seminar.
- 25X1A b. Commentary by [REDACTED] on the same  
25X1A topics. [REDACTED] is presently serving as [REDACTED] 25X1A
- 25X1A c. [REDACTED]
- 25X1A d. A status report on [REDACTED] Cooperative  
Education Program, designed to spot and develop  
promising young candidates while still in college.
- e. A suggested description of the topic, Technology in  
Clandestine Operations.

2. On the assumption that these materials will undergo further editing and collation, I am forwarding them in draft; to have put them in finished form would have further delayed this already overdue requirement.

25X1A 3. We have little to offer in the way of advice regarding seminar techniques. Once a year [REDACTED] management repairs to [REDACTED] for 25X1A a mid-year planning conference (which is run on a seminar basis) and we have found it helpful to split up into small working groups to consider portions of a larger issue. This presupposes, however, that members of the working group are more or less equally experienced and can make meaningful contributions based upon their close association with the topic.

25X1A
